Windows 7 Activator Chews Wga V0. 9 Free Download.. 2.Q: JQuery UI sortable: Keeping arrows in original order I am trying to sort a list of checkboxes (no li's) using jquery UI, using the sortable function. the list is stored in a div, and the sortable function below works perfectly, except that when you let go of the mouse (or the list item), the list goes back to its original order. how can I get the list to preserve the order it was in, even after you let go of a handle? the css is: .sortable { list-style-type: none; margin: 0; padding: 0; display: block; width: 100%; overflow: hidden; z-index: 1; } /* size and position of list */ .sortable li { margin: 5px; padding: 5px; font-size: 1.5em; list-style-type: none; float: left; position: relative; z-index: 1; } /* end css */ and here is the code: aaa bbb ccc thanks for your help.
